ABOUT US

400+

Possess over 400+ production equipment units

500+

With a production team of 500+ people

20000+

Owns 20,000 m² factory building

Shenzhen Tohachi Industrial Co., Ltd. established in 2013, is a modern smart manufacturing enterprise integrating independent R&D, design, and production. Over the past twelve years, we have dedicated ourselves to the field of innovative massagers. Through continuous innovation and exceptional product capabilities, our diverse product have gained widespread recognition in global markets, earning us the reputation as an industry-leading source of smart manufacturing solutions.

Our company has obtained ISO 9001 international quality management system certification, BSCI certification, and Japanese medical device manufacturing certification, establishing a rigorous end-to-end quality control system. Tohachi is committed to leveraging its professional R&D capabilities and lean manufacturing expertise to create market-competitive, high-quality products for global customers, providing one-stop smart manufacturing solutions from concept to mass production.

Tohachi has a professional R&D team of over 40 members, dedicated to technological advancement and product innovation in the massage equipment sector. The team has secured more than 300 domestic patents and over 20 international patents, encompassing inventions, utility models, and design patents, establishing a robust intellectual property system. Our company offers a diverse product, including EMS body shaping devices, posture-correcting massage chairs, EMS pulse massage devices, air wave massage devices, transmission-type massage devices, red light thermal moxibustion devices, and smart moxibustion devices. This extensive range caters to the diverse demands of global markets.

Currently, Tohachi employs more than 500 staff members and operates a production facility spanning 20,000 square meters. With a monthly manufacturing capacity exceeding 1000,000 units, the company delivers comprehensive solutions supporting clients from R&D through mass production.

massage

EMS + TENS Dual-pulse
technology

6 Fat-burning exercise modes

16 Levels intensity adjustable

Product Information

Function Introduction: EMS + Hot compress + Red light + Rotation	Mode Switching: 6 Fat-burning exercise modes
Product Material: ABS + Stainless steel metal	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 4400 mAh	Smart Timer: 30 Minutes

EMS Red-green Light Shaping Waist Belt

W348

-  520nm + 660nm Dual-row matrix red and green lights
-  EMS+TENS Dual pulse
-  27,000mm² Hot compress massage
-  16 Adjustable intensity levels
-  6 Fat-burning exercise modes
-  2mm Ultra-thin invisitle design
360° Three-dimensional waistband

Product Information

Function Introduction: EMS + Hot compress + Red Light + Green Light	Mode Switching: 6 Fat-burning exercise modes
Product Material: ABS + PU Leather + Silver ion + Metal	Temperature Setting: 5 levels smart temperature control
Battery Capacity: 2500 mAh	Smart Timer: 20 Minutes

EMS Red-green Light Shaping Waist Belt

W3410

-  520 nm + 660 nm + 850 nm
Five-zone matrix red-green light
-  EMS+TENS Dual pulse
-  4700 mm² Hot compress massage
-  16 Adjustable intensity levels
-  6 Fat-burning exercise modes
-  2mm Ultra-thin invisitle design
360° Three-dimensional waistband

Product Information	
Function Introduction: EMS + Hot compress + Red Light + Green Light	Mode Switching: 6 Fat-burning exercise modes
Product Material: ABS + PU Leather + Silver ion + Metal	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 2500 mAh	Smart Timer: 20 Minutes

EMS Red-green Light Shaping Waist Belt

W3416

-  520 nm + 660 nm + 850 nm
Five-zone matrix red-green light
-  EMS+TENS Dual pulse
-  4700mm² Hot compress massage
-  16 Adjustable intensity levels
-  6 Fat-burning exercise modes
-  2mm Ultra-thin invisitle design
360° Three-dimensional waistband

Product Information	
Function Introduction: EMS + Hot compress + Red Light + Green Light	Mode Switching: 6 Fat-burning exercise modes
Product Material: ABS + PU Leather + Silver ion + Metal	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 2500 mAh	Smart Timer: 20 Minutes

EMS Red-green Light Shaping Waist Belt

W3417

520 nm + 660 nm + 850 nm
Five-zone matrix red-green light

EMS+TENS Dual pulse

4700 mm² Hot compress massage

16 Adjustable intensity levels

6 Fat-burning exercise modes

2mm Ultra-thin invisible design
360° Three-dimensional waistband

EMS Red-Green Light Shaping Waist Belt

W542

 660nm Red light hot compress

 EMS + TENS + Vibration

 8-Zone EMS shaping design

 16 Adjustable intensity levels

 6 Fat-burning exercise modes

 2mm Ultra-thin design

Product Information	
Function Introduction: EMS + Hot compress + Red light + Vibration	Mode Switching: 6 Fat-burning exercise modes
Product Material: ABS + PU leather + Silver ion + Stainless steel metal	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 2500 mAh	Smart Timer: 20 Minutes

EMS Smart Waist and Abdomen Massager

W335 Pro

 9000mm² Hot compress massage

 EMS+TENS dual pulse massage

 6 Fat burning exercise modes

 16 Levels of adjustable intensity

 8-Zone EMS shaping design

 Silver ion lining

Product Information	
Function Introduction: EMS + Hot compress	Mode Switching: 6 Fat-burning exercise modes
Material: ABS + PU leather + Silver ion	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 2500 mAh	Smart Timer: 20 Minutes

EMS Smart Waist and Abdomen Massager

W336

-  9000mm² Hot compress massage
-  EMS+TENS dual pulse massage
-  6 Fat burning exercise modes
-  16 Levels of adjustable intensity
-  8-Zone EMS shaping design
-  Silver ion lining

Product Information	
Function Introduction: EMS + Hot compress	Mode Switching: 6 Fat-burning exercise modes
Material: ABS + PU leather + Silver ion	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 2500 mAh	Smart Timer: 20 Minutes

EMS Smart Waist and Abdomen Massager

W337

-  9000mm² Hot compress massage
-  EMS+TENS Dual pulse massage
-  6 Fat burning exercise modes
-  16 Levels of adjustable intensity
-  8-Zone EMS shaping design
-  Silver ion lining

Product Information	
Function Introduction: EMS + Hot compress	Mode Switching: 6 Fat-burning exercise modes
Material: ABS + PU leather + Silver ion	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 2500 mAh	Smart Timer: 20 Minutes

Posture Correction Massage Chair Series

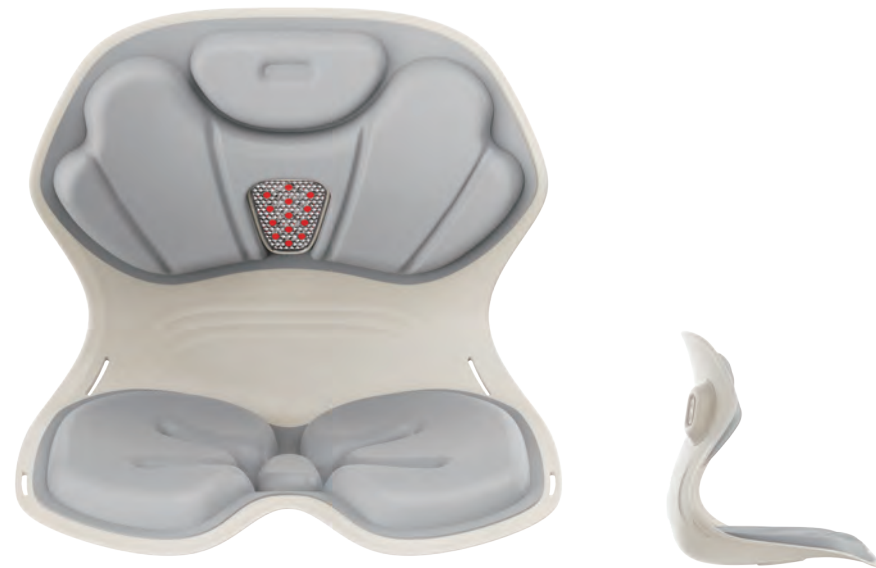

Posture Correction Massage Chair Series

Red Light Hot Compress Posture Correction Massage Chair

B341

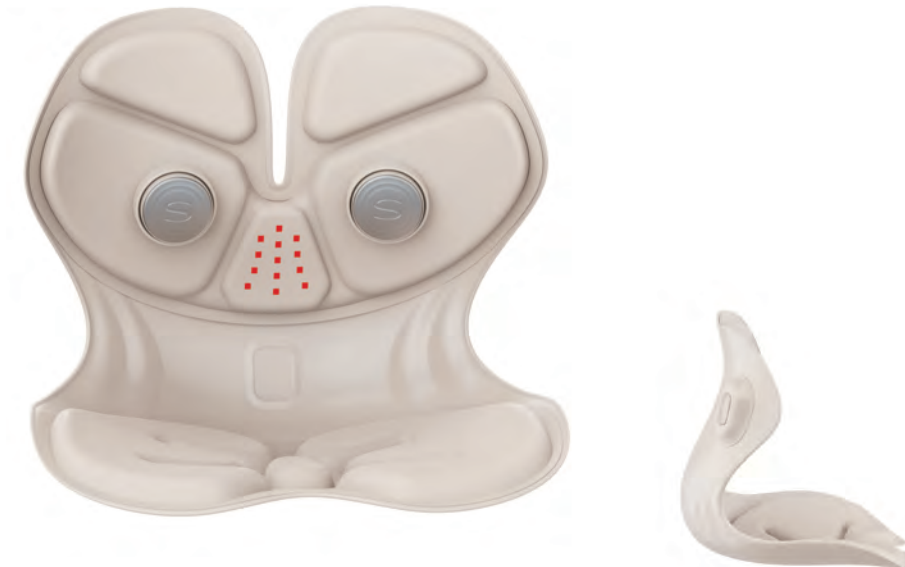

-  Scientific back support for posture correction
-  17,000 mm² Hot compress
-  13 X 660 nm Red light penetration
-  Dual-zone vibration
-  26° Ergonomic design
-  35 mm High-density thickened sponge seat cushion

Product Information

Function Introduction: Vibration + Hot compress + Red Light + Posture Correction	Mode Switching: 3 Modes
Product Material: PP + Sponge	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 2500 mAh	Intelligent Timer: 15 Minutes

Red Light Protecting Waist Posture Correction Chair

B342

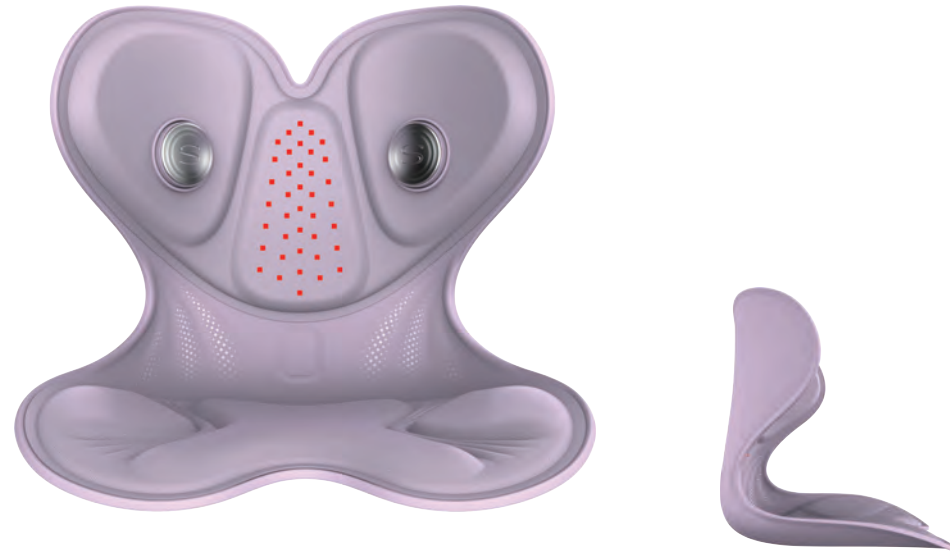

-  Scientific back support for posture correction
-  4390 mm² Hot compress
-  13 X 660 nm + 850 nm Red light penetration
-  Dual-zone vibration
-  26° Ergonomic design
-  35 mm High-density thickened sponge seat cushion

Product Information

Function Introduction: Vibration + Hot compress + Red Light + Posture Correction	Mode Switching: 3 Modes
Product Material: PP + Sponge	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 5000 mAh	Intelligent Timer: 15 Minutes

Red Light Protecting Waist Posture Correction Chair

B343

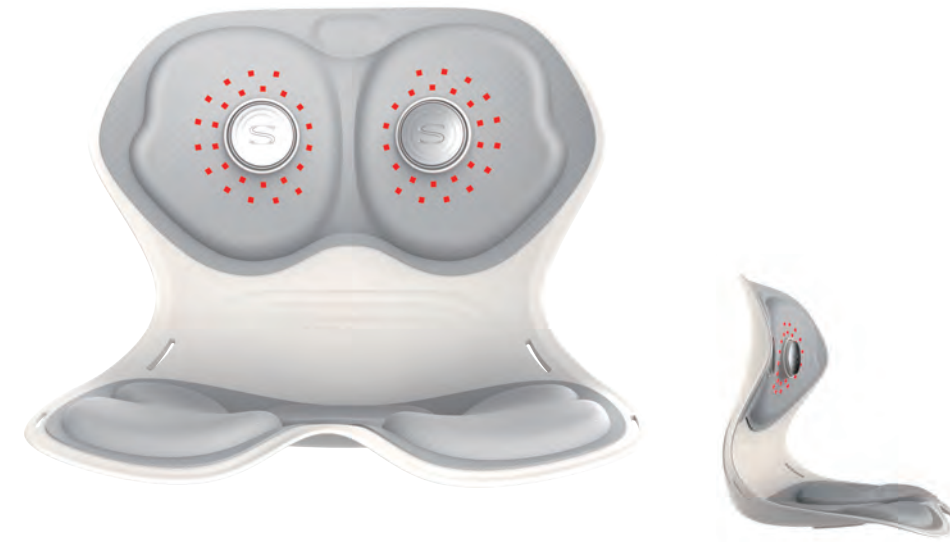

-  Scientific back support for posture correction
-  15,247 mm² Hot compress
-  39 X 660 nm + 850 nm Red light penetration
-  Dual-zone vibration
-  26° Ergonomic design
-  35 mm High-density thickened sponge seat cushion

Product Information

Function Introduction: Vibration + Hot compress + Red Light + Posture Correction	Mode Switching: 3 Modes
Product Material: PP + Sponge	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 5000 mAh	Intelligent Timer: 15 Minutes

Red Light Protecting Waist Posture Correction Chair

B345

-  Scientific back support for posture correction
-  30,000 mm² Hot compress
-  50 X 660 nm + 850 nm Red light penetration
-  Dual-zone vibration
-  26° Ergonomic design
-  35 mm High-density thickened sponge seat cushion

Product Information

Function Introduction: Vibration + Hot compress + Red Light + Posture Correction	Mode Switching: 3 Modes
Product Material: PP + Sponge	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 5000 mAh	Intelligent Timer: 15 Minutes

Red Light Protecting Waist Posture Correction Chair

B751

-  Scientific back support for posture correction
-  Up-and-down massage
-  30 X 660 nm + 850 nm Red light penetration
-  Simulates human hand kneading
-  26° Ergonomic design
-  Removable, one machine with six uses

Product Information

Function Introduction: Vibration + Hot compress + Red Light + Posture Correction	Mode Switching: 3 Modes
Product Material: PP + Sponge	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 4000 mAh	Intelligent Timer: 15 Minutes

Posture Correction Massage Chair

B311

-  Scientific back support for posture correction
-  17,000 mm² Hot compress
-  Intelligent timer
-  Three-level temperature control
-  26° Ergonomic design
-  35 mm High-density thickened sponge seat cushion

Product Information

Function Introduction: Hot compress + Posture Correction	Mode Switching: 3 Modes
Product Material: PP + Sponge	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 2500 mAh	Intelligent Timer: 15 Minutes

Waist and Abdomen Massage Series

Waist and Abdomen Massage Series

Hot Compress Waist and Abdomen Massager

W312

-  36,000 mm² Hot compress massage
-  7,200 rpm High-frequency vibration
-  10,000 mAh Ultra-long battery life
-  5-level smart temperature control
-  Dual-zone rhythmic massage
-  Elastic band

Product Information	
Function Introduction: Hot compress + Vibration	Mode Switching: 3 Modes
Product Material: Silicone + Lycra fabric	Temperature Setting: 5 levels smart temperature control
Battery Capacity: 10000 mAh	Intelligent Timer: 20 Minutes

Lightweight Warming Belt

W313

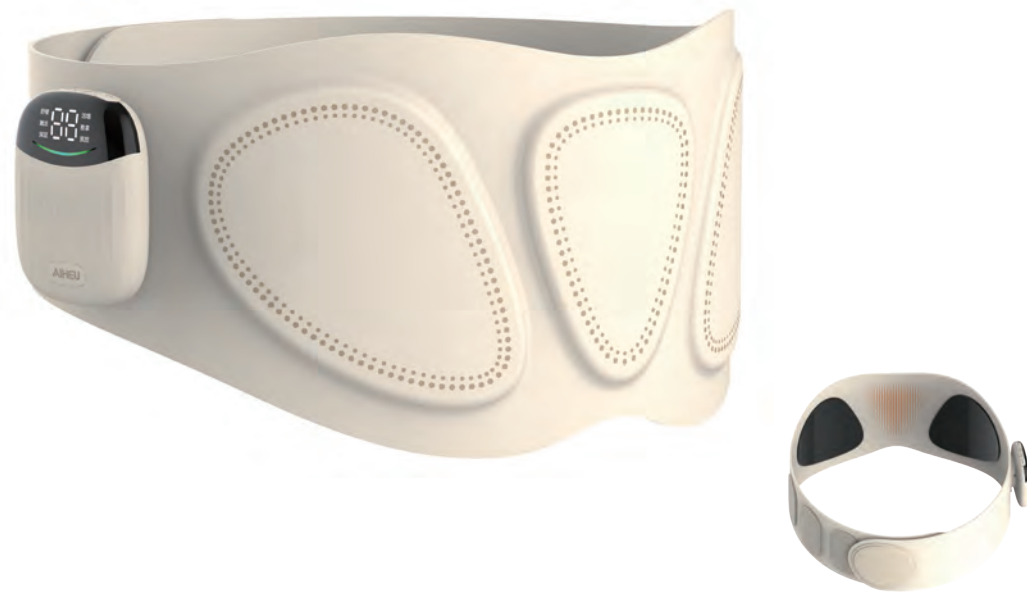

-  16000mm² Hot compress massage
-  Detachable slide rail controller
-  2mm Ultra-thin design
-  Breathable skin-friendly material
-  5-level smart temperature control
-  Voice broadcast

Product Information	
Function Introduction: Hot compress	Mode Switching: 5 Modes
Product Material: ABS + Lycra fabric	Temperature Setting: 5 levels smart temperature control
Battery Capacity: 2500 mAh	Intelligent Timer: 20 Minutes

EMS Smart Waist and Abdomen Massager

W333

- 9000mm² Hot compress massage
- EMS+TENS dual pulse massage
- 2mm Ultra-thin design
- 6 Massage modes
- 16 Levels of adjustable intensity
- 2-Zone EMS shaping design

Product Information	
Function Introduction: EMS + Hot compress	Mode Switching: 6 Modes
Product Material: ABS + Lycra fabric	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 2500 mAh	Intelligent Timer: 20 Minutes

EMS Smart Waist and Abdomen Massager

W741

- 9000mm² Hot compress massage
- 660nm Red light penetration
- EMS+TENS dual pulse massage
- 4-Zone EMS shaping design
- 6 Massage modes
- 16 Levels of EMS

Product Information	
Function Introduction: EMS + Hot compress + Red Light+Vibration + Moxibustion	Mode Switching: 6 Modes
Product Material: ABS + PU leather + Silver ion	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 2500 mAh	Intelligent Timer: 20 Minutes

Red Light Hot Compress Waist and Abdomen Massager

W3412

-  660 nm + 850 nm Red light penetration
-  7200 rpm High-frequency vibration
-  10000mAh Ultra-long battery life
-  5-level smart temperature control
-  Dual-zone rhythmic massage
-  Elastic band

EMS Red Light Smart Waist and Abdomen Massager

W3413

-  660nm Red light penetration
-  EMS+TENS Dual pulse massage
-  Built-in battery
-  2mm Ultra-thin design
-  6 Massage modes
-  16 Levels of EMS

Product Information	
Features: Red light + Hot compress + Vibration	Mode Switching: 3 Modes
Product Materials: Silicone + Lycra fabric + PU leather	Temperature Setting: 5 levels smart temperature control
Battery Capacity: 10000 mAh	Intelligent Timer: 20 Minutes

Product Information	
Features: EMS+ Hot compress + Red light	Mode Switching: 3 Modes
Product Materials: TPU + Lycra fabric	Temperature Setting: 45°C Constant Temperature Intelligent Temperature Control
Battery Capacity: 1500 mAh	Intelligent Timer: 20 Minutes

EMS Hot Compress Massage Back Support Massager

W531

 9000mm² Hot compress massage

 EMS+TENS Dual pulse massage

 26° Butterfly-shaped back support on both sides

 3D design

 Elastic band

 6 massage modes

Product Information

Features: EMS+Heating + Human hand support	Mode Switching: 6 Modes
Product Material: ABS + Lycra fabric + Silicone	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 2500 mAh	Intelligent Timer: 20 Minutes

Hot compress Lumbar Support Massager

W522

 9000mm² Hot compress massage

 Dual-zone high-frequency vibration massage

 26° Support

 3D design

 Elastic band

 6 Massage modes

Product Information

Features: Hot compress + Vibration + Support	Mode Switching: 6 Modes
Product Material: ABS + Lycra fabric + Silicone	Temperature Setting: 5 levels smart temperature control
Battery Capacity: 2500 mAh	Intelligent Timer: 20 Minutes

Red Light Hot compress Waist Massager

W344

-  660nm Red light penetration
-  Dual-zone high-frequency vibration massage
-  Detachable design
-  3D design
-  4 Massage modes
-  2 Sets of elastic band pressure design

Red Light Hot Compress Lumbar Support Massager

W341

-  660nm Red light penetration
-  Dual-zone vibration
-  3D design
-  Four-in-One Function
-  Elastic band
-  4 Massage modes

Product Information	
Function Introduction: Vibration + Hot compress + Red light + Removable + Support	Mode Switching: 4 Modes
Product Material: ABS + Lycra fabric	Temperature Setting: 5 levels smart temperature control
Battery Capacity: 2500 mAh	Intelligent Timer: 20 Minutes

Product Information	
Function Introduction: Red Light + Hot compress + Vibration + Removable + Support	Mode Switching: 4 Modes
Product Material: ABS + Lycra fabric	Temperature Setting: 5 levels smart temperature control
Battery Capacity: 2500 mAh	Intelligent Timer: 20 Minutes

Red Light Hot Compress Lumbar Support Massager

W345

-  660nm Red light penetration
-  Dual-zone vibration massage
-  3D design
-  Four-in-One Function
-  Elastic band
-  4 Massage modes

Product Information	
Function Introduction: Vibration + Hot compress + Red light + Removable + Support	Mode Switching: 4 Modes
Product Material: ABS + Lycra fabric	Temperature Setting: 5 levels smart temperature control
Battery Capacity: 2500 mAh	Intelligent Timer: 20 Minutes

Hot Compress Waist Massager

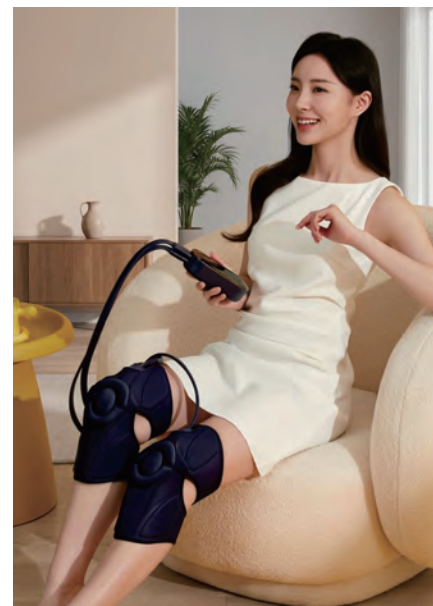

W321

-  36,000 mm² Hot compress massage
-  7,200 rpm High-frequency vibration
-  2000 mAh Ultra-long battery life
-  Dual-zone vibration
-  Elastic band
-  Five-level smart temperature control

Product Information	
Features: Hot compress + Vibration	Mode Switching: 3 Modes
Product material: Lycra fabric + Silicone + ABS	Temperature Setting: 5 levels smart temperature control
Battery Capacity: 2000 mAh	Intelligent Timer: 20 Minutes

Air Pressure Massage Series

Air pressure Massage Series

Air Pressure Full Leg Massager

L721

- Three-level smart temperature control
- 5-Zone air pressure kneading massage
- 15-minute Intelligent timer
- 3 Massage modes
- 2500mAh Ultra-long battery life
- 3-in-1 Integrated design

Product Information	
Function Introduction: Hot compress + Air pressure	Mode Switching: 3 Modes
Product Material: ABS + Composite nylon	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 2500 mAh	Intelligent Timer: 15 Minutes

Air Pressure Full Leg Massager

L522

- Three-level smart temperature control
- 2-Zone air pressure kneading massage
- 15-minute Intelligent timer
- 3 Massage modes
- 3000 mAh Ultra-long battery life
- 3D design

Product Information	
Function Introduction: Hot compress + Air pressure	Mode Switching: 3 Modes
Product Material: ABS + Composite nylon	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 3000 mAh	Intelligent Timer: 15 Minutes

Air Pressure Knee and Calf Massager

L523

- Three-level smart temperature control
- 4-Zone air pressure kneading massage
- 15-minute Intelligent timer
- 3 Massage modes
- 3000mAh Ultra-long battery life
- Integrated knee and leg wrap design

Product Information	
Function Introduction: Hot compress + Air pressure	Mode Switching: 3 Modes
Product Material: ABS + Composite nylon	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 3000 mAh	Intelligent Timer: 15 Minutes

Air Pressure Leg and Foot Massager

L524

- Three-level smart temperature control
- 3-Zone air pressure kneading massage
- 15-minute Intelligent timer
- 3 Massage modes
- 3000 mAh Ultra-long battery life
- Leg-foot integrated wrap-around design

Product Information	
Function Introduction: Hot compress + Air pressure	Mode Switching: 3 Modes
Product Material: ABS + Composite nylon	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 3000 mAh	Intelligent Timer: 15 Minutes

Air Pressure Arm Massager

A541

- Three-level smart temperature control
- 5-Zone air pressure kneading massage
- 15-minute Intelligent timer
- 3 Massage modes
- 3000 mAh Ultra-long battery life
- Integrated arm and shoulder wrapping design

Airbag Hot Compress Knee Massager

L521

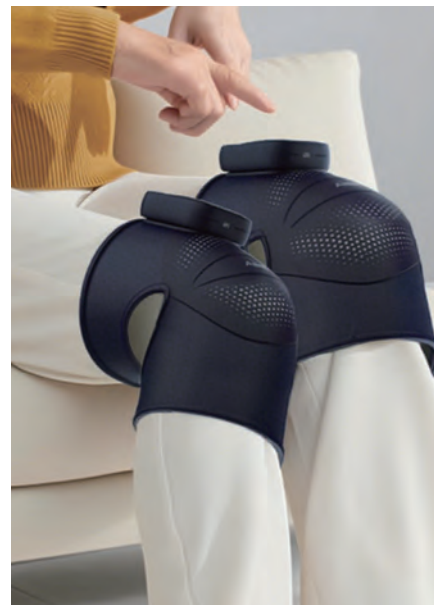

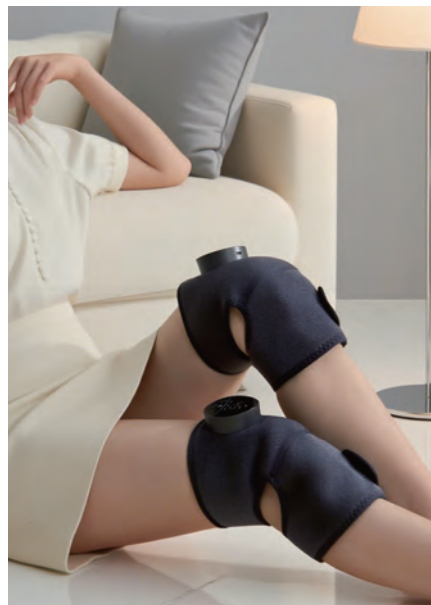

- 16800mm² Hot compress massage
- Five-level smart temperature control
- 4-Zone airbag kneading biomimetic massage
- Dual-zone high-frequency rhythmic massage
- Intelligent digital display
- 3D design

Product Information	
Function Introduction: Hot compress + Air pressure	Mode Switching: 3 Modes
Product Material: ABS + Composite nylon	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 2500 mAh	Intelligent Timer: 15 Minutes

Product Information	
Function Introduction: Vibration + Hot compress+ Air pressure	Mode Switching: 3 Modes
Product Material: ABS + Lycra fabric + PU leather	Temperature Setting: 5 levels smart temperature control
Battery Capacity: 5000 mAh	Intelligent Timer: 15 Minutes

Knee and Leg Massage Series

Knee and Leg Massage Series

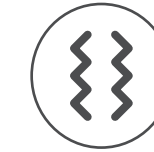

Heated Knee Massager

D311

16800mm² Hot compress massage

Dual-zone high-frequency pulsating massage

Five-level smart temperature control

3D design

Intelligent digital display

6 massage modes

Product Information

Function Introduction: Hot compress + Vibration	Mode Switching: 6 Modes
Product Material: ABS + Diving material + PU leather + Heat retention fabric	Temperature Setting: 5 levels smart temperature control
Battery Capacity: 5000 mAh	Intelligent Timer: 30 Minutes

Hot Compress Knee Massager

D111

-  16800mm² Hot compress massage
-  Dual-zone high-frequency pulsating massage
-  Five-level smart temperature control
-  3D design
-  Intelligent digital display
-  Three-level massage modes

Product Information	
Function Introduction: Hot compress + Vibration	Mode Switching: 3 Modes
Product material: ABS + Diving material + Mesh cloth	Temperature Setting: 5 levels smart temperature control
Battery Capacity: 2000 mAh	Intelligent Timer: 30 Minutes

Airbag Hot Compress Knee Massager

D521

-  16800mm² Hot compress massage
-  Dual-zone high-frequency pulsating massage
-  Five-level smart temperature control
-  3D design
-  Intelligent digital display
-  Airbag kneading biomimetic massage

Product Information	
Function Introduction: Hot compress + Vibration+Air wave	Mode Switching: 3 Modes
Product material: ABS + Lycra fabric + PU leather	Temperature Setting: 5 levels smart temperature control
Battery Capacity: 2200 mAh	Intelligent Timer: 30 Minutes

Airbag Hot Compress Knee Massager

CM01

- Five-level smart temperature control
- 30-minute Intelligent timer
- Three-level massage modes
- 3D design
- Intelligent digital display
- Airbag kneading biomimetic massage

Product Information	
Function Introduction: Hot compress +Air wave	Mode Switching: 3 Modes
Product material: ABS + Diving fabric	Temperature Setting: 5 levels smart temperature control
Battery Capacity: 2000 mAh	Intelligent Timer: 30 Minutes

Airbag Hot Compress Knee Massager

CM05

- 16800mm² Hot compress area
- Five-level smart temperature control
- Dual-zone high-frequency massage
- Airbag kneading biomimetic massage
- 3D design
- Intelligent digital display

Product Information	
Function Introduction: Hot compress + Vibration+Air pressure	Mode Switching: 3 Modes
Product material: ABS + Diving material	Temperature Setting: 5 levels smart temperature control
Battery Capacity: 2600 mAh	Intelligent Timer: 30 Minutes

Red Light Hot Compress Series

Red Light Hot Compress Series

Red Light Hot compress Waist and Abdomen Massager

W3412

-  660 nm + 850 nm Red light penetration
-  7200 rpm High-frequency vibration
-  10000 mAh Ultra-long battery life
-  Three-level smart temperature control
-  Dual-zone rhythmic massage
-  Elastic band

Red Light Hot compress Knee Massager

D341

-  16800mm² Hot compress massage
-  Five-level intelligent temperature control heat therapy
-  70 X 660 nm + 850 nm Red light beads
-  Six-level massage modes
-  Dual-zone high-frequency massage
-  4000 mAh Ultra-long battery life

Product Information	
Features: Red light + Heat compress + Vibration	Mode Switching: 3 Modes
Product Materials: Silicone + Lycra fabric + PU leather	Temperature Setting: 5 levels smart temperature control
Battery Capacity: 10000 mAh	Intelligent Timer: 20 Minutes

Product Information	
Function Introduction: Red light + Hot compress + Vibration	Mode Switching: 6 Modes
Product Material: ABS + Lycra fabric + PU leather	Temperature Setting: 5 levels smart temperature control
Battery Capacity: 4000 mAh	Intelligent Timer: 30 Minutes

Red Light Hot compress Knee Massager

D342

-  16800mm² Hot compress massage
-  Five-level intelligent temperature control heat therapy
-  70 X 660 nm + 850 nm Red light beads
-  Six-level massage modes
-  Dual-zone high-frequency massage
-  5000 mAh Ultra-long battery life

Red Light Hot compress Knee Massager

D343

-  16800mm² Hot compress massage
-  Five-level intelligent temperature control heat therapy
-  70 X 660 nm + 850 nm Red light beads
-  Six-level massage modes
-  Dual-zone high-frequency massage
-  5000 mAh Ultra-long battery life

Product Information

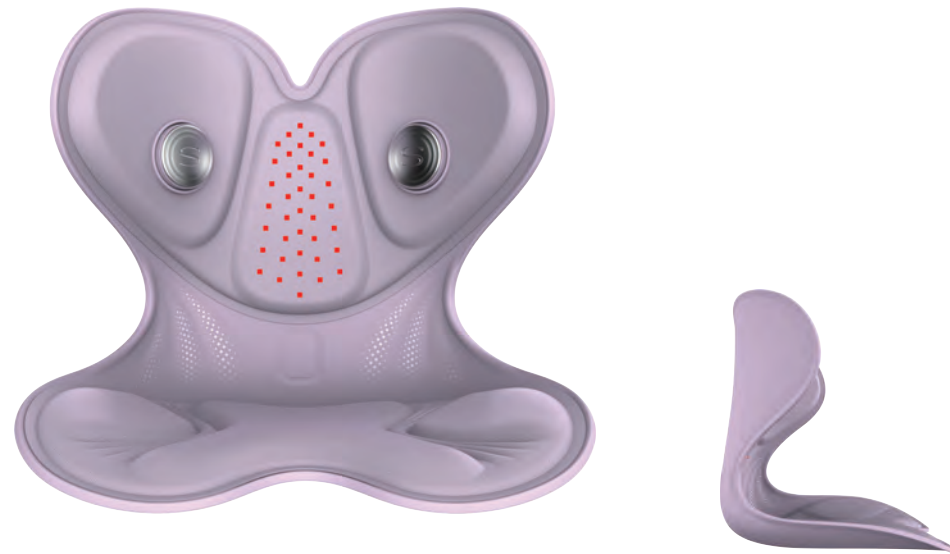

Function Introduction: Red Light + Hot compress + Vibration	Mode Switching: 6 Modes
Product Material: ABS + Lycra fabric + PU leather	Temperature Setting: 5 levels smart temperature control
Battery Capacity: 5000 mAh	Intelligent Timer: 30 Minutes

Product Information

Function Introduction: Red Light + Hot compress + Vibration	Mode Switching: 6 Modes
Product Material: ABS + Lycra fabric + PU leather	Temperature Setting: 5 levels smart temperature control
Battery Capacity: 5000 mAh	Intelligent Timer: 30 Minutes

Red Light Protecting Waist Posture Correction Chair

B343

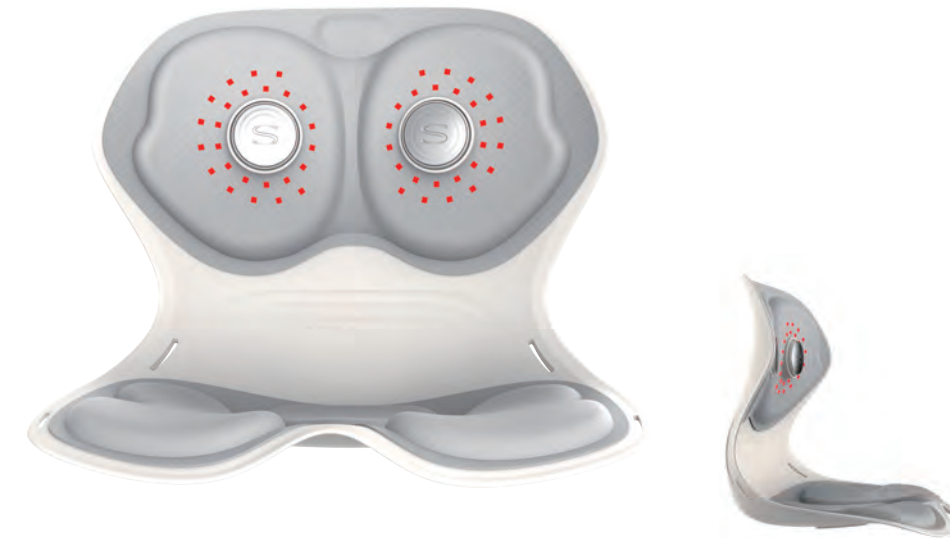

- Scientific back support for posture correction
- 15,247 mm² Hot compress
- 39 X 660 nm + 850 nm Red light penetration
- Dual-zone vibration
- 26° Ergonomic design
- 35 mm High-density thickened sponge seat cushion

Product Information	
Function Introduction: Vibration + Hot compress + Red Light + Posture Correction	Mode Switching: 3 Modes
Product Material: PP + Sponge	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 5000 mAh	Intelligent Timer: 15 Minutes

Red Light Protecting Waist Posture Correction Chair

B345

- Scientific back support for posture correction
- 30,000 mm² Hot compress
- 50 X 660 nm + 850 nm Red light penetration
- Dual-zone vibration
- 26° Ergonomic design
- 35 mm High-density thickened sponge seat cushion

Product Information	
Function Introduction: Vibration + Hot compress + Red Light + Posture Correction	Mode Switching: 3 Modes
Product Material: PP + Sponge	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 5000 mAh	Intelligent Timer: 15 Minutes

Red Light Protecting Waist Posture Correction Chair

B751

Scientific back support for posture correction

Up-and-down massage

30 X 660 nm + 850 nm Red light penetration

Simulates human hand kneading

26° Ergonomic design

Removable, one machine with six uses

Product Information

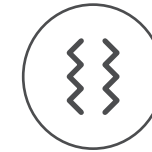

Function Introduction: Vibration + Hot compress + Red Light + Posture Correction	Mode Switching: 3 Modes
Product Material: PP + Sponge	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 4000 mAh	Intelligent Timer: 15 Minutes

Head and Eye Massage Series

EMS Red Light Massage Comb

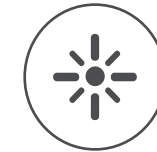

H341

Graphene heat compress therapy

EMS Pulse high frequency massage

Red light matrix therapy

3 Massage modes

Negative ions improve hair static balance

Essential oil mist hair care

Product Information

Features: EMS + Vibration + Hot compress + Nebulization	Mode Switching: 3 Modes
Product Material: ABS	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 2000 mAh	Intelligent Timer: 10 Minutes

Head Airbag Massager

H521

-  Three-level smart temperature control
-  Eye visualization
-  Four-level massage modes
-  Soft and skin-friendly design
-  Voice broadcast
-  Airbag biomimetic massage

Silent Head Airbag Massager

H522

-  Three-level smart temperature control
-  Eye visualization
-  Four-level massage modes
-  Soft and skin-friendly design
-  Pure silent ceramic air pump
-  Airbag biomimetic massage

Product Information

Function Introduction: Air wave + Hot compress	Mode Switching: 4 Modes
Product Material: ABS + PU Leather	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 2500 mAh	Intelligent Timer: 15 Minutes

Product Information

Function Introduction: Airbag massage + Hot compress	Mode Switching: 4 Modes
Product Material: ABS + PU Leather	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 2500 mAh	Intelligent Timer: 15 Minutes

Eye Airbag Massager

E321

- Three-level smart temperature control
- Intelligent timer
- 6 massage modes
- Soft and skin-friendly design
- Pure silent ceramic air pump
- Airbag biomimetic massage

Product Information	
Function Introduction: Airbag massage + Hot compress	Mode Switching: 6 Modes
Product Material: ABS + PU Leather	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 2500 mAh	Intelligent Timer: 15 Minutes

Eye Massager

D107

- Three-level smart temperature control
- 2700 rpm high-frequency vibration
- 3 massage modes
- Large screen high-definition digital display
- Magnetic controller
- 3D design

Product Information	
Function introduction: Vibration + Hot compress	Mode Switching: 3 Modes
Product Material: ABS + Fabric	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 700 mAh	Intelligent Timer: 15 Minutes

Other Massage Series

Other Massage Series

EMS Heating Wrist Massager

A331

- Intelligent constant temperature hot compress
- EMS pulse high-frequency massage
- 6 massage modes
- 15 minutes intelligent timer
- Intelligent digital display
- Lycra breathable skin-friendly material

Product Information	
Function introduction: EMS + heat compress	Mode Switching: 6 Modes
Product Material: ABS+Lycra fabric	Temperature Setting: Intelligent temperature control
Battery Capacity: 800 mAh	Intelligent Timer: 15 Minutes

Smart Smokeless Moxibustion

A101

- Graphene hot compress
- Magnetic design
- Smokeless moxibustion
- One device with four heads
- Three-level smart temperature control
- Charging dock design

Product Information	
Function Introduction: Hot compress + Moxibustion	Mode Switching: /
Product Material: ABS	Temperature Setting: 3 levels smart temperature control
Battery Capacity: 1200 mAh	Intelligent Timer: 20 Minutes
